

My name is Justin Pendleton, and I am a 2022 graduate of Bradley-Bourbonnais Community High School. One of my qualities consists of me always encouraging and motivating others to strive at what they want to do or be in life. I try to understand others' points of view and avoid having negative conversations with others about other people. I strive to always try to have a positive outlook on life no matter the situation. Whenever someone is going through something, I always listen to what they have to say about what is going on with them and find a way to help them get through their situation. My qualities can help address the problem of gun violence because I can join communities to help address the problem of gun violence. Also, I could speak up about gun violence and address that a weapon should be harder to obtain or unavailable to get because this can help stop gun violence in schools, communities, or gun violence in general. My qualities can become helpful in stopping gun violence throughout the country.
