Why is it important for you to exercise your right to vote? If there is one issue you feel should be addressed, what would it be ?

I believe the most important reason to exercise my right to vote is knowing that I have an impact on things that happen in everyday life. Whether it is for a president or a senator every vote counts. We all go through life seeing the same things and in some way it impacts all of us and if you are anything like me you believe that you could make a difference. When I was younger I never knew what the point of voting was; it was just something I saw on a sticker that said "I voted". Now that I am older and paying more attention to the news and seeing more information on my phone about big and small things that go on in different states or countries, it makes me realize that voting isn't just picking any name and forgetting about it. Voting is picking a person that you believe shares similar interests as you and hoping they could make a difference. If there is one issue I feel should be addressed, it would be reducing the prices of healthier foods making it easier for people to gain access because of the significant role it plays in our health
