Why is it important for you to exercise your right to vote? If there is one issue you feel should be addressed, what would it be ?

The most important reason to exercise the right to vote is to have the ability to have rights and use them. Without voting we may not have the right to many things. The government wants to change and make new bills, laws, and regulations, we as the people have the right to accept or decline those actions that may affect us. That's why it's important to vote on things that may affect us and vote for a president that will support us and lead the country in an upward direction. One issue I think should be addressed is project 2025 because not a lot of people are aware that this agenda will regress this country and our people. Defunding k-12 education is absolutely absurd especially when the education system is already lacking continuously as years pass. Defunding health and disability services to those who are in need is unjust. This bill will also give employers the right to discriminate against and terminate people based on their race, sexuality, and religion. There are so many more unjust rules and regulations this agenda is trying to implement. This agenda the republican side is pushing will regress this country back to where we will be questioning if we truly have rights. It is of high importance to vote even on things that may not affect us individually.
